

## PERFUMES.

Any way you want them  
In bulk, or in bottles  
The best makes of the world  
are all represented here.  
The best odors only of the  
best makers come here.  
So your particular odor is sure  
to be in the lot.  
One thing we want you to notice  
about our perfumes,  
Their lasting qualities  
Maybe it's because we know  
how to keep them,  
That's one of the secrets of our  
perfume success.  
Most perfumes are duplicated in  
Toilet waters,  
We sell these too.

Heavy Ribbed hose for children at C. K. W.

Jacob Fredrick of Providence visited Logan on Monday.

H. G. Hayball is still selling 20 lbs. of sugar for \$1.00, and other snaps.

Bishop Bingham of Trenton, the cattle dealer, was in Logan on Saturday.

Otto Gasman, bishop of Weston, also the manager of the Co-op at that place was in Logan on Friday.

Potatoes wanted. Cash paid for all kinds of marketable farm products at the M. & S. Grain & Seed Co. Center Street.

Mr. and Mrs. Fred Madison are now domiciled at the Martineau residence, having located there as a result of the recent change in the Hank's Hotel.

Orson Heath of Smithfield is the mail carrier to and from the depot at that place. He keeps horses and conveyances on hand to accommodate the traveling men.

The song "Dawn of the Millennium" by Mr. and Mrs. Jos. Jeppeson of Millville is meeting with popular favor and a fair sale. In this vicinity one hundred copies have already been sold.

The people of Smithfield are to be congratulated on the appearance of their beautiful tabernacle. The spires now being placed upon the top make it look like a fine edifice in which to worship.

The Cinematograph now holding forth in Thatchers Dancing Parlor is all that it is represented to be. The scenes exhibited are both entertaining and instructive, especially to the young people.

The statement is made by a person in a position to know, that Mr. Hunt of Richmond has contracted to build a large portion of the railroad grade from Corrine to the sugar factory that is being built in Bear River valley, southwest of Collinston.

The snow is melting just right, going into the ground in good shape. Those wishing to plant an early garden should distribute a load or two of fine manure on the ground before the frost is entirely out of the ground. This will melt the snow and dry the ground for early planting.

In the suburbs of the city some parties have taken pains to build sidewalks, hauling gravel, then covering it with a load of clay. Before it has barely been completed, some teamsters have driven over it with a loaded wagon. This is wrong, and in violation of city ordinance. A reward of \$5.00 is offered for the information and conviction of the violators of this law.

Ladies Embroidery sale is now on at H. G. Hayball's

\$1.75 to \$2.50 hats to close at 75 cents at Robinson Bros., The Clothiers, 45 Main.

Ladies Egyptian Cotton Hose, 2 pair guaranteed to wear all summer at C. K. W.

Telephone poles are being placed from the state road to the Farmers Union Mills at Smithfield.

If you want a good eating and a fine selling apple plant the W. W. Pearmain. Fine trees at THE LOGAN NURSERIES.

Bishop Josiah Hammer of Cardston, Alberta, is down at Smithfield for a short time visiting friends and relatives at his old home.

A consignment of 300 lbs. of fresh salmon arrived at Arthur Bateson's on Saturday. They were so fresh in appearance that they resembled fish that had just been caught from the river.

A building boom seems to have struck Richmond. Besides the large tabernacle and a new co-op building that are to be erected, six or seven residences will soon be in course of construction.

Some attention should be given the county roads between Hyde Park and Smithfield. On Friday night the water was breaking over the turnpike in several places. If the water is not looked after, deep gulches will be washed out.

The Richmond Co-op, the new mercantile agency of our sister town, is preparing to open up for business in the old co-op building about April 1st. Mr. George Johnson, the owner of this building, is having it refitted and placed in excellent shape for the new firm.

The citizens of Millville are to be congratulated on the result of their election on March 9th, at which it was voted to build an addition to their school edifice. It was proposed to make a special assessment of seven mills, and the same proposition defeated a year ago was carried at this election by a vote 52 to 22.

William Cunningham of Petersburg, the discoverer and one of the principal owners of the Cache-Mammoth mine located on the west side of the valley, states that the present prospects of the property are very encouraging. The owners have been constantly at work through the winter. As they increase in depth the better the outlook. They are down 55 feet on their shaft.

C. H. Wright who has been in Logan the past week in the interest of a company that will establish a bottling works in this city, has rented one of the new buildings recently built on First West street, north of the Hotel Kiesel. The machinery has arrived and is now being placed for operation. This company intends to manufacture and bottle all kinds of mild summer drinks. They have taken their bearings pretty thoroughly in this county and feel sanguine of working up a good business in this locality.

After driving to this city last Friday, Mr. Wm. Hope of Richmond made the statement that he was in favor of bonding the county for the construction of decent roads. "It will be just as easy to get good roads now as in twenty years from now, said he, "and we can be enjoying them all that time. The way the money is spent on the roads at this time shows to little advantage and doesn't do the greatest good, and I am in favor of bonding and getting enough money to begin on a road and push that road straight through to completion. In that way we would soon have excellent roads all over the county, and in the course of twenty years they would all be paid for." Mr. Hope said that the work done on the Hyde Park division was excellent and that the road is in good shape, the only difficulty being that there is no more of it.

Prof. Clark, head of the department of Public speaking in the University of Chicago, and principal of the Chautauqua school of Expression, will be at the B. Y. C. on March 23. Mr. Clark comes as an interpreter of literature and the drama, and according to the Washington Post, Boston Post, Chicago Times-Herald and New York Tribune, there are none in his line who excel him. He is said to possess a keen intelligence, a remarkably fine voice, and such "a combination of unusual natural endowments, with a training in elocution of the highest order," that his audience is always charmed. Mr. Clark's program consists of arrangements of classical plays, or of several numbers chosen from the various fields of dramatic, lyric, narrative and humorous literature. The coming of such a personage will indeed be a treat to those who appreciate an instructive entertainment of a high order.

#### Notice.

Property owners will please continue to improve their sidewalk with suitable gravel at once in all parts of the city.

The finest and best line of ladies Muslin underwear at C. K. W.

J. A. McAlister is at home from Salt Lake, where he has been for some time in the interest of the A. C.

The Fortnightly Club dance Friday evening was very short in attendance, but six couples being present. A pleasant time was enjoyed by those present, however.

The minstrel performance to be given by the Athletic Association of the A. C., will be given next Saturday evening the 21st. The show will be none the less meritorious on account of the delay.

Messrs. J. C. Walters and Thomas Oldham returned on Sunday evening from a three weeks' trip through California. They went direct to Los Angeles, returning along the coast. The trip proved a most enjoyable one.

William Bingham one of the representative men of the West Cache Canal company, stated that men and teams are at work on the canal, not as many however, as there should be. If the proper support was given the ditch would be completed and water running in it during the present season. As this stupendous project is nearly completed, it is difficult to understand why every available team in that locality is not put at work, at once.

Owing to our correspondent at Lewiston recently leaving for Oregon, we were not advised of the death of Mrs. Christen Jacobson of Lewiston until yesterday. Mr. Jacobson is the postmaster of Lewiston. We sympathize with the family. Mrs. Jacobson was a most estimable lady and while attending to the duties of the post office on special occasions, her ability and obliging disposition has been quite noticeable. The good people of Lewiston will miss Mrs. Jacobson.

The Philharmonic Lady Quartette scored another triumph at the Thatcher opera house Thursday evening. The house had been bought by the two Colleges and a much larger audience than that of the preceding night greeted the artists. The audience was also much more enthusiastic, endorsing practically every number until the third and fourth response was made. Such appreciation brought out the very best efforts of the entertainers and the result was highly satisfactory. The young ladies composing this aggregation have made many friends in Logan and will receive a hearty reception should they ever pass this way again.

County Fish and Game Warden Thornley received a consignment of 100,000 minnows from the state hatchery Friday morning and proceeded to distribute them to the different places deemed best for the growth of the little fellows. 40,000 were sent up Logan canyon, 40,000 to Blacksmith Fork, and 20,000 to Paradise. Mr. Thornley himself took that portion belonging to Logan canyon, and placed them in the river and springs at and near the DeWitt place. The warm springs are thought to be a better place for the minnows than the river proper. This consignment raises the number that have been placed in the river during the last year to 200,000. It would seem that if even a small percentage of that number survived and thrived well, there should be excellent fishing at any place in the county within a short time. However, it is stated that there is little reason why fully nine-tenths should not live, as every precaution is taken to insure a perfect condition of the minnow when placed in the water.

Latest styles of Baby Carriages at Spande Furniture Co.

Elsewhere in this issue will be found an advertisement of William Merrill, of Richmond. Mr. Merrill is not only a Utah boy—but born and raised in Cache Valley and is the son of Apostle W. W. Merrill. This young man started a home industry some years ago and has been successful in manufacturing articles that excel those of other makes. Especial attention might be called to his trucks, they being of high order. As he manufactures them and sells direct to the farmer, doing away with middle men and agents, he can sell cheaper and do better by the farmer, than those handling imported goods. The farmers will save money by dealing with Mr. Merrill besides having the satisfaction of helping to build up and sustain a home industry that is creditable to the county and beneficial to its patrons. We again urge the farmers of the county to turn a little more of their attention towards our home industries. Encourage them by your support. There is a principal involved in this matter, viz: that of furnishing employment for our local mechanics and artisans and keeping our money at home as much as possible. By adhering to this policy we shall become wealthy as a community. The more mechanics that are kept at work, the more produce will be consumed, hence higher prices will follow. These matters are well worthy of your attention.

For a quick growing shade tree plant the CAROLINA POPLAR. A fine stock at THE LOGAN NURSERIES. 384

The Deseret News is authority for the statement that "Sandy Bottom" is a play "full of originality, cleverness and naturalness" and that it "is interpreted by a company of more than average ability." The performance was witnessed by a large audience on Thursday evening, and proved of such merit that large houses were assured the following afternoon and evening. "Sandy Bottom" will be at the Thatcher Opera House on Wednesday evening, the 18th, and will also play at Smithfield the night before, Tuesday, the 17th.

Prof. W. G. Fogleburg who has recently been connected with the B. Y. A. at Provo, as instructor on the piano and violin, is in Logan on a visit. Mr. Fogleburg will be remembered as a former musical instructor in both the B. Y. C. and the A. C. of this city and the many friends he made while a resident of Logan will be pleased to learn that he is contemplating locating here again. Prof. Fogleburg's ability as instructor in music is recognized, and as an entertainer on both violin and piano he has furnished many pleasant hours for Loganites. That he may find it convenient to be with us again, will afford much satisfaction.

If there's a man in town who has an unenviable job, that man is Street Supervisor Holt. It is his duty to see that sidewalks are put in fair condition and are improved as the ordinances direct. His repeated warnings, and frequent reminders are usually met with stolid indifference on the part of property owners, and the walks are not improved. Mr. Holt, who is one of the best natured men occupying an official position in the city, goes time and again rather than have lawful proceedings instituted against the procrastinating property holder. He meets with all kinds of excuses as to why the work isn't done, is told that there are worse walks "right down the street," and that he had better look after them first, but the old man never gets out of patience and keeps pounding away.

The visit of so many members of the Cache county Democracy during the week has been commented upon in many places. Joe Munson, I. C. Thoreson, County Chairman Fullmer, Aaron Farr, Aquila Nebeker and several more who have been prominent in the councils of the party for some time, all happened in together. Of course the candidacy of Mr. Nebeker was discussed at length. Cache county is coming down to the next state convention, a solid delegation for Nebeker for governor. That is all Cache county wants. In this connection it may be stated that there is a very strong sentiment in favor of Quill right here in Salt Lake. Enthusiastic admirers of the man from the north are already discussing the advisability of organizing a "Quill Nebeker Club" with a view to working in his behalf from now on until the state convention meets, when, if he is successful, the organization will do all in its power to elect him. It is the judgment of the friends of Mr. Nebeker that he is an ideal candidate. Beyond the opposition of a very few who claim to dislike him because of his action in the senatorial contest four years ago, he has the confidence and respect of every member of his party, and, if nominated, will no doubt give the opposition candidate the hardest run he ever had.—"Truth" Salt Lake City.
